

# PALINA PASIUKEVICH

## Software Engineer

New York, NY | (845) 377-3920 | palina.pasiukevich@gmail.com  
Github | LinkedIn | Website

### TECHNICAL SKILLS

JavaScript, Python, React, Redux, Node.js, Express, Sequelize, Webpack, PostgreSQL, GraphQL, HTML, CSS, SASS, jQuery, Bootstrap, Flexbox, Mocha, Chai, Jest, Git, Travis CI, Docker, AWS, Google Firebase

### PROJECTS

**HabitLite** - A personalized tracking app that helps users keep track of their goals, by giving points and providing daily charts of their progress to aid in the development of new positive habits

<https://github.com/Palinana/HabitLite>

- Built functionality for several pages on front and back end and enhanced the app with PWA features
- Utilized the Victory data charting React library to show the progress of a user during the day
- Owned the integration of Web Push API to deliver updates on the progress status
- Responsible for the app UI design

**Rocket** - A project management app with real-time notifications

<https://project-app-74cae.firebaseio.com/>

- Created the support of unauthenticated and authenticated users using Firebase Auth service
- Used React/React-Router for navigating between components and Redux to manage the state
- Integrated Firebase Firestore database to store the data on the server side
- Implemented Cloud Functions to show real-time notifications about projects and current users

**Nova** - An e-commerce website where you can purchase and sell furniture

<https://furniture-store-app-01.herokuapp.com/>

- Worked on a team of 4 to create an e-commerce single-page application
- Implemented product search function, worked on the product schema and routes
- Used Bootstrap for styling components on the front end
- Implemented cart checkout using Stripe

### PROFESSIONAL EXPERIENCE

**Happy Bits Co**, Palo Alto, CA - Software QA Engineer

**FEBRUARY 2017 - JANUARY 2018**

- Performed functionality and regression testing on major functionalities of the application
- Created and executed detailed test cases
- Validated application functionality on Android and iOS platforms
- Participated in regular project team meetings to discuss testing procedure and assignments

**Zultys**, Santa Clara, CA - Software QA Engineer

**MAY 2016 - JANUARY 2017**

- Performed functionality, compatibility, regression testing on MXIE application
- Created new and modified existing test cases based on technical requirements using TestLink
- Reported bugs and issues using Jira bug tracking system

### EDUCATION

**Grace Hopper Program at Fullstack Academy**, New York, NY

**MARCH 2018 - MAY 2018** - Immersive software development program

**Foothill College**, Los Altos, CA

**SEPTEMBER 2016 - PRESENT** - Bachelor of Computer Science
